

ASB Adopts Revision of ASOP No. 34

The Actuarial Standards Board (ASB) recently adopted a revision of actuarial standard of practice (ASOP) No. 34, *Actuarial Practice Concerning Retirement Plan Benefits in Domestic Relations Actions*. The revised ASOP applies to actuaries when performing actuarial services in connection with the measurement, allocation, or division of retirement plan benefits in domestic relations actions. The ASOP is not applicable to actuarial services performed in connection with other post-employment benefits, such as medical benefits, that may also be considered as part of the domestic relations action. Key changes from the 1999 version of ASOP No. 34 include modifications to the guidance to state that each assumption selected by the actuary should be individually reasonable and consistent with the other assumptions selected by the actuary, in accordance with ASOP No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations*, and ASOP No. 35, *Selection of Demographic and Other Noneconomic Assumptions for Measuring Pension Obligations*, and to require disclosure of a brief description of the rationale for selection of assumptions and allocation methods. The revised final ASOP, which will be effective for relevant assignments for which the actuary is first engaged on or after December 1, 2015, can be viewed [here](#).

ASB Adopts Pending Draft ASOP on Principle-Based Reserves for Life Products

The ASB adopted a pending draft of an ASOP on *Principle-Based Reserves for Life Products*. The ASOP provides guidance to actuaries when performing actuarial services in connection with developing or opining on principle-based reserves for life insurance that are reported by companies in compliance with the National Association of Insurance Commissioners (NAIC) Standard Valuation Law and the NAIC Valuation Manual as adopted in December 2012. Because the standard involves compliance with a regulation that has not yet taken effect and may undergo substantial changes before it takes effect, the standard will remain in draft form until the Valuation Manual is adopted. When the Standard Valuation Law and thus the Valuation Manual describing the principle-based reserves for life products take effect, the standard will be released or, possibly, modified and re-exposed, as further changes may be necessary. The current draft of the standard can be viewed [here](#).

ASB Holds Hearing on Public Pension Input

The ASB recently held a public hearing at the Reagan Building and International Trade Center in Washington, D.C., to hear commentary on public pension plan issues as they relate to Actuarial Standards of Practice. Several actuarial and pension experts shared their concerns on the funding of public plans and how ASOPs should address public plan funding. The panel, which consisted of ASB members and a Board-appointed Pension Task Force, welcomed the feedback received from the presenters and will use it to continue deliberations in this area.

► Looking Ahead...

The ASB tentatively plans to review the following drafts during its September meeting:

- a new ASOP titled *Property/Casualty Ratemaking* (proposed final draft from the Casualty Committee)
- a new ASOP titled *Determining Minimum Value and Actuarial Value under the Affordable Care Act* (proposed final draft from the Health Committee)
- a revision of ASOP No. 21, *Responding to or Assisting Auditors or Examiners in Connection with Financial Audits, Financial Reviews, and Financial Examinations* (proposed exposure draft from the General Committee)
- a revision of ASOP No. 23, *Data Quality* (proposed exposure draft from the General Committee)

► Meeting Schedule of the Actuarial Standards Board

- ***September 15–17, 2015***
- ***December 9–10, 2015***
- ***January 14-15, 2016 – ASB Planning Meeting (Location: TBA)***
- ***March 9-10, 2016***

All ASB meetings are open to the public, and interested parties may attend. The ASB office should be notified of intent to attend meetings. Unless otherwise noted, meetings take place at the American Academy of Actuaries' office in Washington, D.C.

The Actuarial Standards Board (ASB) sets standards for appropriate actuarial practice in the United States through the development and promulgation of actuarial standards of practice (ASOPs). These ASOPs describe the procedures an actuary should follow when performing actuarial services and identify what the actuary should disclose when communicating the results of those services.
