Background

ASOP No. 28 provides an explicit exclusion for actuaries preparing statements of actuarial opinion for life insurance companies. The ASB believes that the standards of practice delineated in ASOP No. 28 are appropriate for health insurance liabilities and health insurance assets included in statements of actuarial opinion for life insurance companies and should be made applicable.

This exposure draft provides new language for certain sections of ASOP Nos. 22 and 28. Section 3.1 of ASOP No. 22 is changed to indicate that the actuary should review and apply ASOP No. 28 in doing work covered by ASOP No. 22. In addition, the definition of Health Benefit Plan in ASOP No. 22 is changed to be consistent with that in ASOP No. 28. Finally, the scope of ASOP No. 28 is changed to remove the exclusion for work covered by ASOP No. 22.

Request for Comments

The ASB encourages comments on all sections of this exposure draft and is particularly interested in thoughts on whether this expansion of the scope of ASOP No. 28 to cover health insurance work done in connection with ASOP No. 22 is appropriate.

The ASB reviewed this draft and voted in March 2012 to approve its exposure.

The ASB establishes and improves standards of actuarial practice. These ASOPs identify what the actuary should consider, document, and disclose when performing an actuarial assignment. The ASB’s goal is to set standards for appropriate practice for the U.S.

REVISED LANGUAGE

1. Section 1.2 would be replaced with:

1.2 Scope—This standard applies to actuaries providing written statements of actuarial opinion with respect to health insurance liabilities and health insurance assets of insurance or reinsurance companies and other health insurance financing systems (such as health benefit plans provided by self-insured or government plan sponsors) that provide similar coverages, under one or more of the following circumstances:

The standard does apply to actuaries preparing statements of actuarial opinion for life insurance companies with respect to health insurance liabilities included in such analysis; in addition, ASOP No. 22, Statements of Opinion Based on Asset Adequacy Analysis for Life and Health Insurers applies.

If the actuary departs from the guidance set forth in this standard in order to comply with applicable law (statutes, regulations, and other legally binding authority) or for any other reason the actuary deems appropriate, the actuary should refer to section 4.

2. This change would be effective for actuarial opinions issued on or after December 31, 2012.
