

Comment #9 – 10/25/16 – 11:44 a.m.

These comments represent my personal views on the Third Exposure Draft of the Proposed ASOP for Modeling and do not necessarily reflect the views of my employer.

I applaud the volunteers who have taken on the task of developing this and prior exposure drafts. The breadth of the challenge is daunting.

The definition of “simple” models in section 2.12 is not sufficiently clear. I am unable to come up with an example of a model I feel fits this definition. Providing specific examples of simple models would be useful.

Thank you,

Stephen Prevatt, FCAS, MAAA, CPCU
