

**Comment #2 – 3/19/19 – 10:34 a.m.**

I have found a possible typo in the latest exposure draft of ASOP 22. In the Appendix/Background section, at the end of the 5th paragraph, the last sentence says, “Section 7 of the 1991 AOMR did not require an opinion on reserve adequacy”. Admittedly 1991 is a little before my time, but should “reserve adequacy” be “asset adequacy”?
